## Time-Bound Plan

**2.1 Date of first supply chain certification (planned or achieved)**

2013

---

**2.2 Time-bound plan - Year expected to achieve 100% RSPO certification of all supply chains**

2013

---

**2.3 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%)? Please state annual targets/strategies.**

We are already RSPO supply chain certified and have the facilities and administrative structure to supply SG and IP CSPO..

The issue is both finding customers who want to buy it at a workable price.

---

**2.4 Timebound plan - Year expected to only "handle/supply" RSPO certified oil palm products**

2019

---

**2.5 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%)? Please state annual targets/strategies.**

We already have RSPO supply chain certification.

We hope to build up demand from our customers by 10% each year.

The constraint is the lack of demand from our customers and availability of supply at workable price.

---

**2.6 How do you promote RSPO and RSPO certified sustainable palm oil to your customers proactively?**

In our brochures and product leaflets and with our marketing campaigns

---

## GHG Emissions

**3.1 Do you publicly report the GHG emissions of your operations?**

No

---

**Please upload related report:**

--

---

**Add link to website**

--

---

**Please explain why:**

Our operations involve shipping oil to various destinations around the world, getting accurate data for each destination port and onward movement to the customer is not straight forward.

We also see great variation in figures from our supply chain which we are endeavouring to understand, we need to take account of the different packaging in which we supply oil.

We also see conflict with published data.

We are at the bottom of steep learning curve for GHG emissions. when we are confident of the figures we will publish.

**3.2 Does your company have a public commitment to only purchase palm oil from suppliers that disclose their GHG emissions?**

No

**Please upload related report:**

--

**Add link to website**

--

**Please explain why:**

We have seen vigorous public debate on measuring GHG emissions, with very wide variation in the values that should be used included in calculations.

**Actions for Next Reporting Period****4.1 Outline actions that you will take in the coming year to promote CSPO use along the supply chain**

We will continue to actively market CSPO

**Reasons for Non-Disclosure of Information****5.1 If you have not disclosed any of the above information please indicate the reasons why**

Commercial Confidentiality

**Application of Principles & Criteria for all members sectors****6.1 Related to your sourcing, do you have (a) policy/ies, that are in line with the RSPO P&C such as:**

- Water, land, energy and carbon footprints
- Land Use Rights
- Ethical conduct and human rights
- Labour rights
- Stakeholder engagement

**6.2 Where relevant, what prevents you from trading/processing only CSPO?**

In our experience and regrettably only a small portion of world market demand CSPO..

Major assumptions seem to being made about the word market as whole.

---

**Commitments to CSPO uptake**

**As you don't source 100% CSPO through physical supply chains (IP/SG/MB), please answer the following questions: Do you have plans to?**

--

---

**- Please explain why:**

--

---

**- Please specify:**

--

---

**- Do you have plans to immediately cover the gap using Book & Claim?**

--

---

**- How and when do you plan to immediately cover the gap using Book & Claim?**

## Challenges

**1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?**

1) The refiners are still trying to sell CSPO at a premium, the market does not readily accept that premium.

---

**2 How would you qualify RSPO standards as compared to other parallel standards?**

--

---

**Cost Effective:**

Yes

---

**Robust:**

Yes

---

**Simpler to Comply to:**

similar

---

**3 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)**

Internal Training  
Making customers aware through our marketing brochures.

---

**4 Other information on palm oil (sustainability reports, policies, other public information):**

We continue to promote CSPO and are trying to get uptake by our customers]
