*This multimedia report is designed to capture the dynamism of the RT14, and summarises the day's key discussion and messages. To access videos of the sessions and hear what delegates had to say about the issues raised, follow the links throughout the report to the RSPO's dedicated Vimeo conference site.*

## EXECUTIVE SUMMARY

There were many reasons for cheer at RT14, during which the 800 participants received updates on the significant progress made on many fronts in the 12 months leading up to the annual event.

Jurisdictional Certification (JC), a breakthrough standard implemented in three local jurisdictions last year, has moved on to scale- and capacity-building, including cementing strategic partnerships to maximise stakeholder involvement.

Musi Banyuasin, which produces 420,000 tonnes of palm kernel oil (PKO) annually, is developing a provincial “green growth” plan while Sabah aims to achieve “gold jurisdiction”, targeting Zero Deforestation, Zero Conflict and Smallholders’ Livelihoods by 2020.

A widely anticipated move that could potentially boost transparency and add a new dimension to the RSPO’s work also materialised.

It was announced that from January 2017, the organisation would be migrating to PalmTrace, a new IT system integrating the identity preserved, segregation, mass balance, book and claim supply chains into a single platform.

HCV Resource Network’s Paulina Villalpando, meanwhile, conveyed good news on the high conservation value (HCV) front.

She said that for the first time in history, the network has enough data on the location of HCV areas, as well as assessors and concession sites, rendering the HCV a very powerful tool that will enable the RSPO and other standards to make informed decisions in the future.

Amidst the optimism, there was also recognition that more needs to be done in the critical areas of human rights and labour conditions, smallholder engagement and inclusion.

Keynote speaker Nuwesh Thrupkaew’s hard-hitting address cautioned the palm oil (PO) industry on growing scrutiny on alleged labour exploitation and inequality, reminding companies to bridge the gap between “mission versus reality” and “promise versus deliverance”.

Echoing her concerns, Bapak Herwin Nasution, head of Serikat Buruh Perkebunan Indonesia highlighted the need to plug legislative loopholes to address the continued exploitation of workers.

He said greater participation of workers in drawing up the regulations that affect them could potentially smoothen the implementation process.

Articulating concerns on the ground, Bapak Augustinus Triwibowo from PT Dharma Satya Nusantara reminded the RSPO to make available a translation of Principles & Criteria (P&Cs) in the Indonesian language to speed up their adoption, while one speaker said the magnitude and cost relating to the RSPO’s traceability procedures may be a hurdle to smallholder participation.

## EXECUTIVE SUMMARY *(continued)*

Despite the gaps, the noteworthy achievements from the projects the RSPO has carried out so far include workers' development and smallholder/stakeholder engagement.

Bapak Narno Sayoto Irontiko of AMANAH Palm Oil Independent Smallholders Association said the emphasis on sustainability has shifted the mindset of growers from individual productivity to collective responsibility, while the transfer of technical knowledge has accelerated their conversion to sustainable planting.

Elsewhere, a growing number of companies are supporting the RSPO's work, with some even providing benefits that go beyond mandatory requirements.

To improve livelihoods through sustainability, Procter & Gamble supports the RSPO's Smallholder Working Group by facilitating links between growers worldwide, while Golden Agri-Resources Ltd is developing a pro-women policy that allows breastfeeding during working hours.

In China, the Chinese Chamber of Commerce is drawing up a national roadmap for sustainable PO to promote engagement with government agencies and companies, while in Netherlands, the consumption of certified sustainable palm oil (CSPO) has escalated, driven by the nation's commitment to 100% adoption of SPO in Europe by 2020.

There were suggestions on enhancing smallholder engagement through the simplification of procedures and focusing on the positives.

Johan Verburg from Oxfam Novib advocated a change in mindset from the current emphasis on the negatives – "No Exploitation, No Planting, No Deforestation" — to investing in building smallholders' capacity to manage their own areas for sustainability.

Meanwhile, with self-critique being part of the RSPO's DNA, RT14 saw its fair share of reflection, like in past RTs.

Dr Marcus Colchester from the Forest Peoples Programme said while the RSPO fills a need, the organisation is not doing this very well. He lamented the lack of quality assurance in the monitoring of the New Planting Procedures as well as shortcomings despite the fact that RSPO has grievance mechanisms in place.

Jan Pierre Jarrin Peters from Oleana said a sore point among buyers of PO is that since the supply of CSPO exceeds demand, they should not be paying more if the higher price, and hence the profits, are not equitably distributed to the upstream players (growers), who made far less profit than the downstream players (i.e. manufacturers and retailers).

Nevertheless, he thinks the RSPO still has a role as the leading SPO certification body and sustainability platform.

# DELEGATES OVERVIEW

## RT14 Participants

**43**  
COUNTRIES

**865**  
DELEGATES

<b>NORTH AMERICA</b>	<b>46</b>	<b>EUROPE</b>	<b>143</b>	<b>ASIA</b>	<b>642</b>
Canada	4	Belgium	4	Hong Kong	4
Guatemala	2	Denmark	4	India	7

## RT14: Registration

### REGISTRATION BY MEMBERSHIP

### REGISTRATION BY STAKEHOLDER/SECTOR (RSPO Members)

Oil Palm Growers	141
Palm Oil Processors and Traders	108
Retailers	6
Consumer Goods Manufacturers	42
Banks and Investors	17
Environmental or Nature Conservation Organisations (Non-Governmental Organisations)	51
Social or Development Organisations (Non-Governmental Organisations)	26
Organisations or Individual (Affiliate)	56
Supply Chain Associate (Associate)	0

# SOCIAL MEDIA

Social Media activity was in full swing over the 7 October to 18 November campaign in the run-up to RT14, making it one of RSPO's most successful in terms of reach and engagement.

## TWITTER

More than 20,000 engagements on Twitter created a lot of buzz during the period, which saw the #RT14 hashtag being used 1,300 times from 650 accounts.

This equated to 4.8 million timeline deliveries, with a reach of 1.5 million.

*"...we accept that  
RSPO also  
needs to reform."*

## WELCOME ADDRESS

### Dato' Carl Bek-Nielsen

CO-CHAIRPERSON, RSPO  
CHIEF EXECUTIVE DIRECTOR,  
UNITED PLANTATIONS BERHAD

RSPO Co-chairperson Dato' Carl Bek-Nielsen weighed in on the organisation's growing obligations to smallholders, now comprising more than 50% of producers in Indonesia, 40% in Malaysia and 80% in Thailand.

He said that this group of producers requires more resources, time and help, adding that the RSPO risks having smallholders turn their backs on it if the organisation failed to fulfill one of the United Nations' most important pillars of sustainable development, i.e. raising the living standards of the poor. Emphasising RT14's theme of "Learning to Live Together – From Vision to Transformation", Dato' Bek-Nielsen reminded members to "stimulate progress and accept that the RSPO also needs to reform".

Citing a lack of ownership as the reason why some non-RSPO growers stopped short of joining the sustainability movement, he urged members to work together to achieve the RSPO's shared vision of making sustainable palm oil the gold standard.

## MINISTERIAL ADDRESS

### His Excellency General Prawit Wongsuwan

DEPUTY PRIME MINISTER  
OF THE KINGDOM OF THAILAND

With 1,674 RSPO certified farmers and another 1,300 projected to come on board as certified growers in 2017, the Thai Government is a flag bearer of sustainable Palm Oil certification.

Steering the world's third-largest producer of palm oil's commitment to the RSPO standards is the National Oil Palm Policy Committee, an oversight agency tasked with building

sustainability mechanisms and competitiveness in Thailand's oil palm sector.

In his address, the Deputy Prime Minister of Thailand His Excellency General Prawit Wongsuwan said the palm oil industry is a significant contributor to the country's domestic economy, which has averaged a healthy 7% growth over the past decade.

## KEYNOTE ADDRESS

### Nuwesh Thrupkaew

INTERNATIONAL JOURNALIST,  
OPEN SOCIETY FELLOW,  
CONTRIBUTING EDITOR,  
*THE AMERICAN PROSPECT*

Award-winning investigative journalist Nuwesh Thrupkaew's hard-hitting address was akin to a call to arms to palm oil stalwarts — make good on RT14's theme of transforming the RSPO's vision to reality.

Ms. Thrupkaew, whose work on social change focuses on the plight of migrant workers, said the PO industry is increasingly attracting public scrutiny of a problem prevalent in other industries — that of labour exploitation and inequality.

Describing the industry as being at a "critical juncture", she underscored the need for companies to bridge the gap between "mission versus reality" and "promise versus deliverance".

Besides enhanced traceability and enforcement, Ms Thrupkaew also called for greater inclusion of the voices of dissent in the RSPO's certification process towards achieving true engagement, opportunity and growth.

*"Towards  
Human Sustainability  
in the  
Palm Oil Industry."*

# PREPARATORY CLUSTER 1

## RSPO Measures to Reduce Emissions

### MODERATOR

#### Cherie Tan

GLOBAL SUSTAINABLE SOURCING DIRECTOR,  
UNILEVER

### SPEAKERS

#### Dr Gan Lian Tiong

HEAD OF SUSTAINABILITY,  
PT MUSIM MAS GROUP  
CO-CHAIR, RSPO EMISSIONS REDUCTION  
WORKING GROUP

#### Augustinus Triwibowo

MS DEPARTMENT HEAD,  
PT DHARMA SATYA NUSANTARA

#### Grant Rosoman

FORESTS ADVISOR,  
GREENPEACE INTERNATIONAL  
CHAIR OF THE HCS APPROACH  
STEERING GROUP

In this session, Dr Gan Lian Tiong from the RSPO's Emissions Reduction Working Group (ERWG) informed the meeting that all members will be required to publicly report their greenhouse gas (GHG) emissions from 1 January 2017.

He said overall, members' uptake of voluntary reporting under Criteria 5.6 and 7.8 had been good. The ERWG is now developing checklists for audit procedures and a new GHG calculation for scenario testing.

Both measures are to become effective from 2017.

Articulating sentiment on the ground, Bapak Augustinus Triwibowo said Indonesian planters are still waiting for the RSPO to translate the procedures into the local language, adding that this could speed up the adoption of Principles and Criteria.

## PREPARATORY CLUSTER 2

# How Legal or Traceable are Your FFBs?

### MODERATOR

#### Sarbarinah Marzuky

HEAD OF RSPO & CERTIFICATIONS UNIT,  
SIME DARBY PLANTATION SDN BHD

### SPEAKERS

#### Robert Madge

CEO,  
FOODREG DATEN AG

#### Pierre Courtemanche

CEO,  
GEOTRACEABILITY LTD

#### Rukaiyah Rafiq

EXECUTIVE DIRECTOR,  
YAYASAN SETARA JAMBI

#### Pavithra Ramani

DEPUTY DIRECTOR OF  
RESPONSIBLE SOURCING,  
PROFOREST

In this session, speakers shared how enhanced engagement between mills and producers as well as new tools can be deployed to mitigate the risk of illegal fresh fruit bunches (FFBs) entering the supply chain.

A FoodReg study cited Ghana and Thailand as examples where keeping indirect supplies low (Ghana) and nurturing close collaboration between mills and growers (Thailand) have narrowed the gaps through which illegal FFBs can seep into the supply stream.

Leveraging on technology, GeoTraceability is ready to roll out innovative solutions to improve traceability at the smallholder level while boosting productivity and building capacity, while Proforest's Pavithra Ramani called for strengthening supplier-producer engagement to promote responsible sourcing.

## PREPARATORY CLUSTER 3

# Supply & Demand of Certified Sustainable Palm Kernel Oil

### FACILITATORS

#### Inke van der Sluijs

TECHNICAL MANAGER EUROPE,  
RSPO

#### Ashwin Selvaraj

ASSISTANT TECHNICAL MANAGER EUROPE,  
RSPO

### MODERATOR

#### Chris Sayner

VICE PRESIDENT, CUSTOMER ALLIANCES,  
CORPORATE SUSTAINABILITY (CRODA)

### SPEAKERS

#### Laura Jungmann

MANAGER SUSTAINABLE PRODUCTS,  
AHOLD DELHAIZE GSO B.V.

#### Dr Uwe Heiser

BU INDUSTRIAL & CONSUMER SPECIALTIES /  
HEAD OF GLOBAL QUALITY ASSURANCE,  
CLARIANT

#### M S Sriganesh

HEAD SOURCING & GM KEY ACCOUNTS,  
GALAXY SURFACTANTS LTD

#### Dr Petra Meekers

DIRECTOR OF CSR & SUSTAINABLE  
DEVELOPMENT,  
MUSIM MAS GROUP

#### Shahrizan Aini Shamsul Khalil

HEAD, MARKET INTELLIGENCE & PLANNING,  
SIME DARBY BERHAD

This session kicked off with an engaging quiz involving the moderator, panellists and members from the floor and was aimed at driving home the message of sourcing commitments.

Inke van der Sluijs, Technical Manager Europe from the RSPO, provided interesting insights with an illustration on how real-life players in the certified sustainable palm kernel oil (PKO) supply chain worked together while Ashwin Selvaraj, Assistant Technical Manager Europe, updated participants on the RSPO credits and changes to the GreenPalm certification that will spur uptake while addressing supply-side shortages.

With traceability becoming more complex as the supply chain progresses to the retail consumer, speakers also discussed ways to overcome the obstacles and make the sustainable supply of PKO the industry norm.

## PREPARATORY CLUSTER 4

# Jurisdictional Certification — Progress, Challenges & Experiences Around The Initiatives

### MODERATOR

#### John Buchanan

SENIOR DIRECTOR,  
SUSTAINABLE FOOD & AGRICULTURE MARKETS,  
CONSERVATION INTERNATIONAL

### SPEAKERS

#### Datuk Sam Mannan

DIRECTOR,  
SABAH FORESTRY DEPARTMENT

#### Datuk John Payne

EXECUTIVE DIRECTOR,  
BORNEO RHINO ALLIANCE

#### James Sullivan

CONSULTANT,  
RSPO

#### Ofra Shinta Fitri

INNOVATION MANAGER,  
INOBU

#### Beni Hernedi

BUPATI, MUSI BANYUASIN,  
SOUTH SUMATRA

A year after Jurisdictional Certification (JC) was adopted, the RSPO is refining the standard to make it more inclusive, anchoring it on existing standards but making it adaptable to local conditions. The focus is on scalability and reward rather than creating new hurdles as well as global relevance.

Speakers also updated participants on the progress being made at the local government levels at Seruyan, Musi Banyuasin and Sabah, where JC was implemented in 2016.

## PREPARATORY CLUSTER 5

# How to Better Conserve Biodiversity?

### MODERATOR

#### Datuk Dr John Payne

EXECUTIVE DIRECTOR,  
BORNEO RHINO ALLIANCE

### SPEAKERS

#### Dr Mike Senior

SENIOR PROJECT MANAGER,  
PROFOREST

#### Juan Carlos Espinosa

ENVIRONMENTAL LEADER,  
FEDEPALMA

#### Dr Jennifer Lucey

SCIENCE IMPACT COORDINATOR,  
UNIVERSITY OF YORK/ SEARRP

#### Kishokumar Jeyaraj

DIRECTOR & HCV ASSESSOR,  
MALAYSIAN ENVIRONMENTAL  
CONSULTANTS

The plenary on biodiversity challenged entrenched market perceptions on conservation, with moderator and panellists alike providing succinct analyses and depth to a broad, wide-ranging topic.

Moderator Datuk Dr John Payne from the Borneo Rhino Alliance reminded participants that bioecology — the study of species-area interdependency established in the 70s — is today narrowly interpreted as referring only to “endangered species”.

Meanwhile, speaker Dr Mike Senior from Proforest showed how new tools could remotely map the probability of High Carbon Value, emphasising the importance of such tools in spurring the voluntary adoption of biodiversity conservation, especially among smallholders.

## PREPARATORY CLUSTER 6

# Sustainable Financing

### MODERATOR

#### Tiur Rumondang

INDONESIA DIRECTOR,  
RSPO

### SPEAKERS

#### Ghislaine Nadaud

SENIOR SUSTAINABILITY ADVISOR FOR ENERGY,  
COMMODITIES & TRANSPORTATION  
ABN AMRO BANK N.V.

#### Jeanne Stampe

ASIA FINANCE & COMMODITIES SPECIALIST,  
WWF INTERNATIONAL

#### Irwan Gunawan

DEPUTY DIRECTOR MARKET TRANSFORMATION,  
WWF INDONESIA

#### Paul Chandler

MANAGER, ENVIRONMENTAL ISSUES,  
UNPRI

Participants got a sense of the growing voice among long-term institutional investors — the stewards of capital focused on performance and social-economic goals — in supporting companies that reduce deforestation or forest burning, are honest and transparent, and reach out to their investors.

Another speaker, Irwan Gunawan, said WWF Indonesia is working with local banks to beef up their internal capacity to provide sustainable financing while integrating Environmental, Social and Governance aspects into their lending guidelines.

## PREPARATORY CLUSTER 7

# Sustainable Pathways for the Thai Palm Oil Sector (SUSPENSE)

### MODERATOR

#### Dr Warit Jawjit

DEAN,  
SCHOOL OF ALLIED HEALTH & PUBLIC HEALTH  
ASSISTANT PROFESSOR ON ENVIRONMENTAL  
SCIENCE,  
WALAILAK UNIVERSITY

### SPEAKERS

#### Elena Degli Innocenti

RESEARCHER,  
WAGENINGEN UNIVERSITY

#### Somjai Npueng

ASSISTANT PROFESSOR OF ECONOMICS,  
WALAILAK UNIVERSITY

#### Siriluk Somneuk

AGRICULTURAL RESEARCHER,  
WAGENINGEN UNIVERSITY

#### Kanokwan Saswattecha

ENVIRONMENTAL RESEARCHER,  
WAGENINGEN UNIVERSITY

#### Dr Greetje Schouten

RESEARCHER,  
WAGENINGEN UNIVERSITY

Intent insight and policy matters dominated the discussion on sustainable pathways in the palm oil industry, with a focus on Thailand's unique experience in developing the sector.

Moderator Dr Warit introduced the SUSPENSE (SUStainable palm oil = Environmentally Sustainable and Equitable) project, a joint initiative of three graduate schools to chart science-based methods to determine sustainable pathways for the production, processing and governing of palm oil.

Wageningen University researcher Elena Degli Innocenti presented findings from her "Black Box" study, which showed that ramps in the Thai value chain — physical collection points where producers bring in their fresh fruit bunches for weighing before they are sent to mills — were critical in facilitating greater adoption of RSPO certification in Thailand.

Her fellow researcher Kanokwan Saswattecha drove home the message that for real change on the sustainability front, a combination of policies, including options that may not be the cheapest, were necessary to avoid making a negative environmental impact.

*“...what RSPO has always been striving for – how to do things better.”*

## WORLD CAFÉ

The World Café dissected a broad range of matters close to members’ hearts, but the one thing that stood out was what the RSPO has always been striving for – how to do things better.

The discussions on the desired change for the RSPO brought forth many cogent ideas for improvement from the Profit, People and Planet perspectives.

One participant said a sore point among buyers of palm oil was that the upstream players (growers) made far less profit than the downstream players (i.e. manufacturers and retailers).

Jan Pierre Jarrin Peters from Oleana said buyers contend that since the supply of Certified Sustainable Palm Oil exceeds demand, they should not be paying more if it (the higher price) does not benefit the oil palm growers.

Conserving and protecting the planet on which we live and sow also drew a lot of suggestions ranging from improving Environmental Impact Assessment studies and further equipping the RSPO staff with training or knowledge to further the sustainability agenda.

## WORLD CAFÉ *(continued)*

A representative from Sime Darby Group proposed the management of vacant but unplanted areas within plantations to restore carbon while participants from Wetlands International and Aksenta spoke on the conservation of forests to make water available to their connecting production areas.

The familiar topic of planting oil palm on peat land also cropped up, with participants advocating alternative cultivation methods to avoid the long-term degradation of such soil. An interesting angle was that of resilience, which got some participants discussing what this means and which level of the supply chain this should be at.

In deliberating ways to further the RSPO's agenda, World Café participants advocated making better use of Annual Communication of Progress data not just for consistency, but also to obtain an overview of the supply chain in respect of the RSPO's sustainable policy, and feeding the data to the RSPO's other initiatives.

Donald Ginting from First Resources said the process of building resilience should start with the plantations followed by the supply chain, to which the RSPO's Oi Soo Chin added that smallholders should also be included.

## VOX POPS

During RT14, we asked participants to name the RSPO's greatest achievements and the organisation's biggest challenges. Here's what they had to say.

**Hardi Baktiantoro**  
CENTRE FOR ORANG UTAN PROTECTION

In terms of orang utan conservation, RSPO intervention is very effective; although a bit slow but it is still the best...

**Aisyah Sileuw**  
DAEMETER

The greatest moment is when we have an RT like this, where all stakeholders get together and talk about their challenges and what they have achieved so far.

**Jamartin Sihite**  
BORNEO ORANG UTAN SURVIVAL FOUNDATION

The biggest result of RSPO is making biodiversity a part of businesses. We hope next year we can prove that palm oil (companies) and conservation can work together to save the orang utan.

**Marcello Brito**  
AGROPALMA

Our biggest moment was the certification of 244 families in Brazil — the first and only in Latin America in 35 years.

**Joko Arif**  
NOBU (INOVASI BUMI)

The proudest moment was at RT13 when the RSPO endorsed pilot projects in Jurisdictional Certification as part of the challenge to engage all stakeholders in certification.

## VOX POPS (continued)

**Azmey bin Sakong**  
SMALLHOLDER  
FROM WAGS KINABATANGAN

After we obtained certification, we began to see the benefits as well as better understand RSPO's priorities.

**Taha bin Abd Mazid**  
SMALLHOLDER  
FROM WAGS KINABATANGAN

Before RSPO, we didn't know what worked. Today, we are continuously improving ourselves and have gained price-wise compared with growers who are not certified.

**Frederick Francis**  
SMALLHOLDER  
FROM WAGS BELURAN

We smallholders have benefited a lot from RSPO's advice on best agriculture practices and raising productivity.

**Ambran bin Pasikin**  
SMALLHOLDER  
FROM WAGS BELURAN

Our land management practices, documentation and monthly yields have all improved after we implemented RSPO systems.

**Philippe Provost**  
L'OREAL

In the past 3 years, we have been fighting to put PKO and derivatives in the spotlight. We now have a joint project in Sabah bringing smallholders to certification under a mass balance model.

**Sheila Senathirajah**  
WILD ASIA

The RSPO community's biggest challenge is its critics. Rather than criticise, we can comment and improve, talk about the gaps and how to make things better.

## VOX POPS (continued)

**Dani Rahadian Hidayat**  
SNV NETHERLANDS DEVELOPMENT  
ORGANISATION

“ A challenge for RSPO is to consider the interest and expectations of all parties in the value chain, which connects growers and off-takers, as this can influence external parties such as governments, financial institutions and communities. ”

**Dr Guo PeiYuan**  
SYNTAO CO., LTD.

“ I am happy to see growth of the RSPO in China as more big brands now want to adopt the RSPO approach. It is momentous that we now have an RSPO office in China, one of the biggest consumers of palm oil. ”

**Juan Carlos Espinosa**  
FEDEPALMA

“ A big challenge is engaging with smallholders to ensure they have the information and means to comply with RSPO's P&Cs. ”

**JK. R. Raghunath**  
KIS GROUP

“ RSPO brings positivity to palm oil community. In the past four years participating in the conference, we have seen the discussions move from sustainability to the benefits, and now the success stories. ”

**Priya Gopalan**  
UBS AG

“ Our bank ensures that all our clients are members of the RSPO with a path to certification. This ensures that the people we bank with are doing the right thing in a sustainable way. ”

# PLENARY SESSION 1

## RSPO Updates

### MODERATOR

#### Adam Harrison

GLOBAL PALM OIL LEAD,  
WWF INTERNATIONAL

### SPEAKERS

#### Jan Van Driel

HEAD OF CERTIFICATION,  
RSPO

#### Felipe Guerrero

CORPORATE DIRECTOR OF SUSTAINABILITY,  
DAABON GROUP

#### James Sullivan

CONSULTANT,  
RSPO

#### Andy Green,

RESPONSIBLY SOURCED DEVELOPMENT  
DIRECTOR,  
EXOVA BM TRADA

In the spirit of transparency, this plenary presented leading thoughts in the sector and outlined the future direction of the RSPO.

Jan Van Driel, RSPO Head of Certification, updated members on the migration to a new IT platform, PalmTrace, replacing the existing eTrace platform in 2017. The new system will combine all four supply chain models — identity preserved, segregation, mass balance, book and claim — into a single platform.

Meanwhile, James Sullivan, consultant to the RSPO, presented early thoughts on the Principles and Criteria review due in 2017, while Exova BM TRADA's Andy Green introduced a new standard applicable to the RSPO members aimed at ensuring the accuracy and integrity of all claims in efforts to enhance the desirability of the RSPO members' products.

## PLENARY SESSION 2

# Delivery on Impacts

### MODERATOR

#### Mark Brindal

RESEARCHER,  
ENVIRONMENT INSTITUTE,  
UNIVERSITY OF ADELAIDE

### SPEAKERS

#### Vidya Rangan

MANAGER, IMPACTS,  
ISEAL ALLIANCE

#### Dr Tey Yeong Sheng

SENIOR RESEARCH FELLOW,  
INSTITUTE OF AGRICULTURAL &  
FOOD POLICY STUDIES,  
UNIVERSITI PUTRA MALAYSIA

#### Peter Konjin

MANAGER, MONITORING & EVALUATION,  
UTZ

Advances in technology have made it possible for corporates and smallholders to adopt enterprise-wide Monitoring and Evaluation (M&E) systems, but leveraging such data for strategic purposes, whether as part of knowledge management or implementation in improvement mechanisms, is being hindered by a lack of understanding.

This session explored how M&E results can be made more accessible and practical to comprehend, and how best to leverage on strategically to improve operational efficiency.

Speakers felt that if classified and disseminated properly, M&E data could potentially lift the image of entire industries, including CSPO, but cautioned that proof of impact could only be determined by studying tangible evidence and assessing the quality of implementation.

## PLENARY SESSION 3

# Regional Perspectives

### MODERATOR

#### Michelle Desilets

EXECUTIVE DIRECTOR,  
ORANGUTAN LAND TRUST

### SPEAKERS

#### Gregory Bardies

MARKET TRANSFORMATION OFFICER,  
WWF SINGAPORE

#### Chen Ying

DIRECTOR OF CEREALS & OILS DEPARTMENT,  
CHINA CHAMBER OF COMMERCE  
OF FOODSTUFFS & NATIVE PRODUCE

#### Sarah Sijes

SENIOR POLICY ADVISOR FOR SUSTAINABILITY,  
EMBASSY OF THE KINGDOM OF THE  
NETHERLANDS IN INDONESIA

#### Jose Roberto Montenegro

GENERAL MANAGER,  
AGROCARIBE S.A.

#### K Natarajan

CHIEF OPERATING OFFICER,  
GALAXY SURFACTANTS LTD

#### David Hoyle

DIRECTOR,  
PROFOREST

Inclusiveness was the overarching theme in this session focusing on efforts to promote the uptake of CSPO, namely Singapore, China, India, Europe, Latin America and Africa.

WWF Singapore told participants it has spearheaded an industry-led multi-stakeholder platform that includes creating an observer spot for the Singapore Government to garner governmental support in promoting awareness of CSPO among companies.

In China, the world's largest economy hosted its inaugural China Sustainable Palm Oil Supply Chain Forum in July 2016 in cooperation with the RSPO and WWF, while the Chinese Chamber of Commerce is drawing up a national roadmap for sustainable palm oil that will be used as a stakeholder engagement tool with government agencies and companies.

Meanwhile, the Dutch Government's commitment to achieve 100% adoption of sustainable palm oil in Europe by 2020 is rapidly gaining ground as the nation's consumption of CSPO rose to 84% versus 30% in 2011.

## PLENARY SESSION 4

# Have Smallholders Seen Improvements in the 12 Years of the RSPO?

### MODERATOR

#### Perpetua George

ASSISTANT GENERAL MANAGER,  
WILMAR INTERNATIONAL LTD

### SPEAKERS

#### Girish Deshpande

GLOBAL SURFACTANTS BUSINESS PLANNER,  
PROCTER & GAMBLE

#### Dr Petra Meekers

DIRECTOR OF CSR AND SUSTAINABLE  
DEVELOPMENT,  
MUSIM MAS GROUP

#### Triyanto Fitriyardi

OPERATIONS OFFICER, MANUFACTURING,  
AGRIBUSINESS & SERVICES DEPARTMENT,  
INTERNATIONAL FINANCE CORPORATION

#### Johan Verburg

PRO-POOR VALUE CHAINS ADVISOR,  
OXFAM NOVIB

#### Narno Sayoto Irontiko

GROUP MANAGER,  
AMANAH PALM OIL INDEPENDENT  
SMALLHOLDERS ASSOCIATION

This frank exchange – part-discussion and part-report card — examined where the RSPO was in its on-the-ground engagement.

Bapak Narno Sayoto Irontiko of AMANAH Palm Oil Independent Smallholders Association described how the emphasis on sustainability has shifted the mindset of growers from individual productivity to collective responsibility, while the transfer of technical knowledge to growers has accelerated their conversion to sustainable planting.

Urging industry players to look beyond certification and simplifying certain procedures, Oxfam Novib's Johan Verburg said smallholder engagement should focus on the positive, such as investing in smallholders' ability to manage their own areas for sustainability.

## PANEL DISCUSSION 1

# Emerging Issues on Labour Working Conditions

### MODERATOR

#### Daryll Delgado

RESEARCH & STAKEHOLDER ENGAGEMENT  
PROGRAMME MANAGER,  
VERITE SOUTH EAST ASIA

### SPEAKERS

#### Herwin Nasution

UNION LEADER,  
SERIKAT BURUH PERKEBUNAN INDONESIA

#### Denys Collin Munang

CHIEF INTERNATIONAL BUSINESS OFFICER,  
FELDA GLOBAL VENTURES HOLDINGS BHD

#### Jan Pierre Jarrin Peters

SUSTAINABILITY DIRECTOR,  
OLEANA

#### Agus Purnomo

MANAGING DIRECTOR FOR SUSTAINABILITY  
& STRATEGIC STAKEHOLDERS ENGAGEMENT,  
GOLDEN AGRI-RESOURCES LTD

Speakers representing diverse stakeholders discussed the progress made so far in a key pillar for sustainability in the palm oil industry – fair working conditions.

Bapak Herwin Nasution, who heads Serikat Buruh Perkebunan Indonesia, highlighted the need to plug legislative loopholes to address the continued exploitation of workers.

Elsewhere, there were a few bright spots, with companies in some countries voluntarily complying with international conventions.

Jan Pierre Jarrin Peters, Sustainability Director at Oleana, gave participants a glimpse of best practices from Ecuador, a country with the second-highest basic wage in South America and the second-highest rate of displacement in the world, while Golden Agri-Resources Ltd was developing pro-women policies, allowing breastfeeding during working hours.

## PANEL DISCUSSION 2

# Implementing Certification Assurance – Who is Responsible?

### MODERATOR

#### **Paul Wolvekamp**

DEPUTY DIRECTOR,  
BOTH ENDS

### SPEAKERS

#### **Tunku Nazim Tunku Yaacob**

DIRECTOR,  
MALAYSIAN ENVIRONMENTAL CONSULTANTS

#### **Dr Marcus Colchester**

SENIOR POLICY ADVISOR,  
FOREST PEOPLES PROGRAMME

#### **Robert Cheong Chun Yuen**

HEAD OF SUSTAINABILITY,  
TUV NORD (MALAYSIA) SDN BHD

#### **Paulina Villalpando**

EXECUTIVE DIRECTOR,  
HCV RESOURCE NETWORK

#### **Laszlo Mathe**

RSPO ACCREDITATION PROGRAMME MANAGER,  
ACCREDITATION SERVICES INTERNATIONAL  
GMBH

Both ENDS Deputy Director Paul Wolvekamp set the tone for the discussion by calling for clear guidelines and robust monitoring in assessments to deal with underperforming or persistent offenders.

Sharing his perspective as an assessor, Tunku Nazim Tunku Yaacob of Malaysian Environmental Consultants said most people responsible for a site tend to assume that they can delegate their sustainability related efforts to their salaried employees.

Lamenting the lack of quality assurance in the monitoring of the New Planting Procedures (NPPs), Dr Marcus Colchester from the Forest Peoples Programme pointed out that there were still implementation flaws even though the RSPO had grievance mechanisms in place.

While Tunku Nazim suggested the integration of NPPs in companies' operational management to make results more tangible, Dr Colchester believes the solution lies in the retraining and recruitment of staff.

*"We must own the problem, only then can we solve it."*

**Datuk Darrel Webber**  
CEO, RSPO

## CLOSING ADDRESS

Beginning his address with a brief tribute to the late King Bhumibol Adulyadej, Datuk Darrel Webber thanked the host nation and fellow participants for their contributions towards a successful conference despite trying times.

He said in pursuing its mission of connecting producers from the South to markets in the North, there was a need for self reflection within the RSPO membership on who it was selling the idea of transformation to.

Datuk Webber asked member nations to step up mobilisation efforts and ensure that national sustainable palm oil initiatives were connected tangibly to create ownership among buyers as well as producers.

He cautioned against taking the "tempting route" of excluding the people at the bottom of the pyramid from this process.

## MEDIA COVERAGE

A good turnout comprising 37 publications and 49 representatives from the Thai, Malaysian, Indonesian, Indian, European and international media attended RT14. A total of 17 interviews were scheduled with the RSPO's key spokespersons and RT14 speakers.
