

About your organisation			
Name of the organisation:	Lam Soon (Thailand) Plc.		
Membership number:			
In addition to your activities as a palm oil grower, does your company have significant activities in any other parts of the palm oil supply chain?	We operate across all aspects of the palm oil supply chain	Other, please specify	We are a vegetable oil refinery together with a stand alone an oil palm crushing mill without any plantation.
Please list any related company operating within the palm oil supply chain, which is linked through more than 51% ownership. E.g. an affiliate, a majority shareholder in a joint venture, a subsidiary or a parent company	United Palm Oil Industry Company	Are these members of the RSPO?	Yes
Operations and certification progress			
Total volume of CPO handled per year	140,000 ton	Volume certified	none
Total volume of PKO handled per year	18,000 ton	Volume certified	none
Total volume of PK handled per year	300 ton	Volume certified	none
Number of certified supply chains and which supply chain option they use	Identity Preserved (t)	Zero	
	Segregation (t)	Zero	
	Mass Balance (t)	Zero	
Timebound plan - Year that you expect to supply 100% certified sustainable palm oil?	Currently, Thailand NI of RSPO P & C has not yet been endorsed by EB of RSPO. We can not commit the definite time to start supply certified palm oil, even we are members of core team national interpretation working group. The difficulty of 100% certified sustainable palm is that FFB of Oil palm is produced by independent smallholder more than 75% of total production in Thailand.		
Timebound plan - Year expected to achieve 100% supply chain certification	2013	Comments	
Other information			
Other information (sustainability reports, policies, other public information)	Lam Soon, LST, is the member of the Thailand national interpretation working group and task force for producing NI of independent smallholder. We continually educate our smallholders in improving their oil palm cultivation and management. LST participated in LCA / LCI of carbon emission both mill and refinery supported by GIZ. In addition, the refinery participated in carbon emission assessment follow GHG Protocol and Eco-efficiency production program supported by Industrial Estate Authority of Thailand.
