Long before the word "organic" became part of every day language, the Juchem Group and therefore the Juchem Food Ingredients GmbH has played an active role in caring for the environment.

Juchem has now been a member of the RSPO since 2010 and since then we have done a lot to inform our customers about the advantages of sustainable palm oil, helped with questions concerning certification and sent out information leaflets. Some customers have already switched to using sustainable palm fat and numerous have already announced that they want to switch in the following years. Please find further information on reports attached.

Time-bound plan

Time-bound plan - Year expected to achieve 100% supply chain certification

2010

What are your interim milestones towards achieving this CSPO Commitment (year and progressive CSPO%) - please state annual targets/strategies

In the last report we stated that we will start buying certified palm oil in 06/2012. We can say that we have started earlier than that and demand/volumes are growing. We have finished building our new production unit which will enable us to provide sustainable palm oil in kosher quality as well. A realistic goal for achieving 80% sustainable palm fat powder by 12/2014. Again I would like to point out that in this matter we are very dependent on our customers to switch to sustainable palm oil.

Targets for next reporting period

Outline actions that will be taken in the coming year to promote sustainable palm oil:

We expect that by this time next year, more than 10 customers have switched to sustainable palm oil which would mean a yearly volume of 1000mt.

We are continuously promoting sustainable palm oil and a happy assist customers with questions. We published an article in the German "Lebensmittel Zeitung" in which we have in
