State your policy on palm oil (Please provide links, upload attachments or complete the text box)

Please provide links for reports that may be relevant to Sustainable Palm Oil.

Gattefossé is a leading provider of specialty ingredients and formulation solutions to the Health and Personal Care industries worldwide.

Founded over a century ago by pioneering scientists, the company possesses in-depth know-how in the areas of biological extraction and oleochemistry.

Combining scientific and technological advances, Gattefossé has consistently transformed natural ingredients of several vegetable origins into products that meet the formulation challenges of rapidly developing markets.

Gattefossé operations are guided by corporate values that safeguard quality, safety, ethics, and the environment as interdependent virtues.

In the environmental domain in particular, Gattefossé is most careful in its observation of all regulations governing its activity such as non-renewable energy, or liquid and solid waste management and valorization which have lead to specific investments.

As a user of palm oil and palm kernel oil derivatives, we are sensitive to the environmental impact of palm tree growing.

In 2010, our company became a member of RSPO (Round Table for Sustainable Palm Oil), to support conscientious and responsible palm oil producers and cooperatives.

In 2011, we have purchased GreenPalm Certificates of sustainable palm oil or palm kernel oil to cover almost all the palm/palm kernel oil needs of our worldwide cosmetic business.

With this action, we support a proactive approach in line with the RSPO code of conduct, in order to ensure that the world's palm oil is produced within a legal, economically viable, environmentally appropriate and socially beneficial manner.

For 2012, Gattefossé will cover 100% its use of PO/PKO derivatives for personal care through the Green Palm certificates.
