2.5 According to the information you have provided in this questionnaire, your company has not reached 100% sustainable palm yet by using the four supply chain models (Book and Claim, MB, SG, IP). Do you have plans to immediately cover the gap by using RSPO Credits?

#### 2.5.2 Please explain why

We have reached 100% sustainable palm, we are using approx 85 tons of palm oil derivates in our products which we produce on behalf of our customers (3rd party).

This is what we have documented in the questionnaire.

So I don't understand why this question is popping up. All our palm oil derivates/components in our raw materials are from RSPO origin of which 98% SG and 2% MB.
