5. Actions for Next Reporting Period

5.1 Please outline activities that your company will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

KIND currently sources all of its palm kernel oil and palm oil from RSPO-certified suppliers at the mass balance level. We and our partners support the RSPO's efforts to improve the sustainability of palm kernel oil throughout the global supply chain. Working with our business partners, we continue to explore additional opportunities to improve the sustainability of palm kernel oil along our supply chain. Through our membership in the RSPO, we hope to help advance responsible industry standards. KIND will continue to work with RSPO-certified suppliers exclusively. As part of our commitment to source palm kernel oil from RSPO-certified suppliers, we will also: 1) regularly evaluate our suppliers to confirm they are in good standing with the RSPO, 2) ensure they are achieving at minimum a mass balance standard, and 3) encourage them to advocate for greater availability of segregated/identity preserved palm kernel oil in the global supply chain.

6. Shared Responsibility

The Board of Governors of the Roundtable on Sustainable Palm Oil (RSPO) approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility indicators will be done through several channels, including ACOP. As the implementation of Shared Responsibility reporting is still on-going and in development, the Shared Responsibility section in ACOP is not yet final and may change in future ACOP cycles. For more information on Shared Responsibility, please go to <https://rspo.org/news-and-events/news/what-are-the-new-shared-responsibility-rules> or email the ACOP team at acop@rspo.org

KIND acknowledges that there are significant challenges and complexities associated with the global palm kernel oil/palm oil supply chain. While KIND's usage is very small, relative to the broader the consumer goods manufacturing industry, we understand that our demand has contributed to its growing usage. KIND supports the RSPO's position that the use of palm kernel oil/palm oil should not carry a steep social and environmental cost, and is working within the RSPO framework to improve the sustainability of the global supply chain. As a first step, in 2015, we transitioned to RSPO-certified suppliers and began sourcing all of our palm kernel oil/palm oil at the mass balance level. KIND continues to explore additional opportunities to improve this broader supply chain.
