5. Actions for Next Reporting Period

5.1 Outline activities that you will take in the coming year to promote the use of RSPO-certified palm oil and oil palm products along the supply chain.

Enaspol understands, how much it is important that all links in the supply chain concerning the production and processing of palm oil, starting from plantations and ending with the end user cooperate with each other, mutually support each other and work in an environmentally and socially responsible way. Enaspol continuously promotes the principles of sustainable palm oil when dealing with industry associations, NGOs or other stakeholders. Our goal is to capitalize on the institutional framework of the RSPO to effect change. Through its relationships with all relevant stake holders Enaspol will continuously support sustainability improvements in the palm supply chain. We support the idea of sustainable palm oil production and the dialogue initiated by the RSPO organization that has developed, implemented and promotes basic, global standard of sustainable development in relation to the sustainable production of palm oil and its processing in the entire supply chain.
