1. Time-Bound Plan
4.1 Year of first RSPO P&C certification (planned or achieved)
2019
2010
4.2 Year expected to achieve 100% RSPO certification of estates and mills.
2019
4.2.1 If target has not been met, please explain why.
The delay has had to do with the land use analysis process and the subsequent compensation and remediation plan, which is in
the final stage.
4.3 Year expected to achieve 100% RSPO certification of Scheme/Plasma/Associated smallholders and Outgrowers.
2024
4.3.1 If target has not been met, please explain why.
The process has been delayed, as we considered in the previous agreements 3 years after obtaining the RSPO certificate from our supply base. We have already received the external audit and we are in the process of approval of the compensation and remediation plan, with which we would finalize with the obtaining of the certificate and start the process of certification of independent producers.
4.4 Year expected to achieve 100% RSPO certification for all FFB, regardless of source.
2028

6.2.2 What is the average GHG footprint by - tonne of crude palm oil (tCO2e/tCPO)? -0.27
6.3 What would be the key emission sources identified?
The main emissions come from the fertilization activity on farms.

Page 6/8 **Grower Form**

6.4 What measures are currently being taken to reduce GHG emissions?

Improve the precision in the chemical fertilization plan to use only what is necessary. Include in the fertilization plan the use of compost in some areas of the farms. Explore other alternatives for reducing the use of chemical fertilizer.

7. Actions for Next Reporting Period

7.1 Outline activities that you will undertake in the coming year to advance your certification efforts.

We have already received the RSPO external audit, we are working on the actions to correct the findings and waiting for the approval of the compensation and remediation plan and thus finish the certification process.

7.2 Outline activities that you will undertake in the coming year to promote CSPO along the supply chain.

Participate in events that promote the RSPO standard. Inform our stakeholders about the actions that the company has been carrying out in favor of sustainability.

Carry out training activities with the schools of the community promoting a culture of environmental conservation and protection of the ecosystems of the sector.

Promoting to the interested parties including the community good practices focused on the rational use of natural resources. Focus on the activities that support the development of the communities and address the negative impacts identified in the social and environmental impact studies.
