5. Actions for Next Reporting Period

5.1 Outline actions that you will take in the coming year to promote the use of RSPO-certified sustainable palm oil and oil palm products along the supply chain.

We will continue to engage in discussions with key control brand suppliers not already using physical supply of certified sustainable palm oil (CSPO) to encourage them to develop time-bound plans to convert to physical supply of sustainable palm oil. We will also continue to track the increased use of CSPO in our control brand supply chain. Loblaw also participates in retail industry association committees, to discuss ways to help increase greater industry adoption of CSPO.

## 7.1.F None of the above. Please explain why

7.2 What best practice guidelines or information has your organisation provided in the past year to facilitate the uptake of RSPO-certified sustainable palm oil and oil palm products? What languages are these guidelines available in?

Our Loblaw Palm Oil Policy is shared with all new control brand suppliers during on boarding, and during product development, palm oil specifications are to clearly indicate to which RSPO-recognized supply chain model palm oil ingredients adhere. The policy is available in English and French.
