We observe the current local consumer market veering towards a coconut based cooking oil. With a lack of consumer demand and interest for sustainable palm oil products in the local market, we face the difficulty of amassing a critical volume with potential product suppliers to bring the costs of RSPO certified palm oil down. This would affect our social mission to moderate the cost of living in Singapore. To overcome this, we will explore various communication and marketing channels to promote sustainable palm oil products.
10.2 In addition to the actions already reported in this ACOP, how has your organisation supported the vision of RSPO to transform the market for sustainable palm oil in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)
☐ Engagement with business partners or consumers on the use of CSPO
☐ Engagement with government agencies
☐ Promotion of CSPO outside of RSPO venues eg trade workshops industry associations
