Time-Bound Plan
3.1 Year of first supply chain certification (planned or achieved).
2016
2010
3.2 Year started/expected to start to handle/trade/process any RSPO-certified palm oil and oil palm products.
2017
3.2.1 If target has not been met, please explain why.
Although, we have achieved our first supply chain certification in MB oils in March 2016, we have only been buying palm oils from RSPO members since 2014.
This practice we will continue in the future as well.
3.3 Year expected to achieve 100% RSPO certification of all palm product processing facilities.
2020

3.3.1 If target has not been met, please explain why.

This expectation of achieving 100% RSPO certification of all supply chains entirely depends upon our customers requirement, for whom we buy the oils.

If the customer wants a specific oil i.e. Segregated or IP, only then will we pursue the relevant certification.

Also to note here, are the high premiums associated with such oils as you move up the RSPO certification supply chain. Very high premiums and product un-availability may discourage customers from getting oils like SG, IP etc.

	pected to only handle/trade/process 100% RSPO-certified palm oil and oil palm products
2020	
3.4.1 If tarç	et has not been met, please explain why.
	d in 3.3.1., the expectation of only handling 100% RSPO certified palm oil and oil palm products will entirely depend stomers requiring such products for whom we buy the oils.
3.5 Which	countries do these commitments cover?
Pakistan	
3.6 How do	you proactively promote RSPO and RSPO-certified sustainable palm oil and oil palm products to your ?
Major part o	f sales is to large multinational customers, who are already members of RSPO and are using certified oils.
