Other:

The obstacles we have had toward the certification: 1. There is a gap between RSPO requirements and national legislation. 2. High cost of implementation of RSPO P&C. 3. Long time response. 4. In Ecuador, 87% of palm growers are smallholders, whom economic situation limit them from the RSPO certification. 4. Long list of requeriments. We need approval of the smallholder certification scheme.

Other:

The obstacles we have had toward the certification: 1. There is a gap between RSPO requirements and national legislation. 2. High cost of implementation of RSPO P&C. 3. Long time response. 4. In Ecuador, 87% of palm growers are smallholders, whom economic situation limit them from the RSPO certification. 4. Long list of requeriments. We need approval of the smallholder certification scheme.
