Other:

The main challenge we are facing with our customers is that although they understand RSPO principles (even more from early days 2018 and on-wards since there is in progress a huge anti-palm wave hitting EU) they still do not wish to embear the premiums forced over convectional prices. Specially when this applies to laurics.

10.2 In addition to the actions already reported in this ACOP how has your organisation supported the vision of RSPO to transform markets in other ways?
☐ Engagement with business partners or consumers on the use of CSPO
☐ Engagement with government agencies
☐ Promotion of CSPO outside of RSPO venues eg trade workshops industry associations
☐ Promotion of physical CSPO
☐ Providing funding or support for CSPO development efforts
