2025

**3.5 If the TimeBound Plan commitments declared above do not cover all countries in which the member sells goods with palm oil or palm oil products, please explain why**

We have seen the demand for RSPO-certified palm oil is increasing but not from anyone in our markets. Most of our customers are still not RSPO certified since the finished product importers/buyers are also not keen on using RSPO certified material in the merchandise . It takes time for the market to shift from conventional to RSPO certified materials.

**3.6 How does your company proactively promote RSPO and RSPO-certified sustainable palm oil and oil palm products to your customers?**

We have been regularly talking to our customers about the importance of using the RSPO-certified sustainable palm oil and oil palm products. We would guide them how to get started to be the RSPO members. Also, the flow of obtaining the RSPO certificate by introducing them some accredited certificate bodies.

#### 4. Actions For Next Reporting Period

**4.1 Please outline activities that your company will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)**

As per our company policy in previous years, we will base on the principal and criteria of the RSPO supply chain requirements to educate our customers to be more alerted to the needs and importance of using RSPO-certified oil and oil palm products. As a trader, we will also reflect the actual market needs to our vendor in order for them to develop more appropriate RSPO-certified oil products to perfectly cater for the market needs.
