2.5 According to the information you have provided in this questionnaire, your company has not reached 100% sustainable palm yet by using the four supply chain models (Book and Claim, MB, SG, IP). Do you have plans to immediately cover the gap by using RSPO Credits?

No

2.5.1 When do you plan to cover the gap by using RSPO Credits?

__

2.5.2 Please explain why

Initially it has been company policy to cover all Remia brand products with Greenpalm certificates and later RSPO credits. At the end of 2017 our company has decided to no longer use credits but cover all Remia brand products with the physical supply chain Mass Balance. We started this in March 2018.
