5. Actions for Next Reporting Period

5.1 Outline activities that you will take in the coming year to promote the use of RSPO-certified palm oil and oil palm products along the supply chain.

We have achieved a sales of CSPKO to 76.71% (physical and including PalmTrace Credits) in 2018. We have far exceeded our targets for the year 2018 of 44%. We will continue to maintain our existing customers and be active in the PalmTrace trading for the year 2019. By doing so, we should be able to maintain our sales volume of CSPKO.

6. Non-Disclosure of Information

6.1 Information in the sections above are mandatory declarations in your ACOP. For confidentiality purposes, members may choose not to display volume data in Section 2 publicly; however, RSPO reserves the right to utilise the member's data on an aggregate basis for sectoral and total analysis. Please check this box if the member chooses to have the data in Section 2 displayed publicly.

Other:

As a palm kernel crusher, only CSPKO applies to us. Due to the limited number of RSPO Certified Mills, our procurement of CSPK is limited to few big suppliers only. For this reason, we foresee greater competition when more Crushers are RSPO Certified in the future. We will deal with the competition as any player would do in the market place i.e. fair pricing, reliability in deliveries / collection and efficiency in related matters.
