	ase include details of all operations using palm oil, owned and/or managed by the member and/or all entities that to the group.		
percenta our bio- as clear	Åôs use of palm oil ingredients is largely limited to derivatives of palm and palm kernel oil. Typically present in very small ages as sub-components of surfactants, fatty alcohols, emulsifiers or fragrances, palm oil derivatives are used in some of based and conventional cleaning products, food flavorings and fragrances as well as natural personal care products such assers, lotions, shampoos and soaps. Palm oil derivatives are important ingredients in our formulas; however, Clorox,Äôs im oil ingredient volume represents less than 0.01 percent of palm oil produced globally each year.		
2.1.1 In	which markets do you manufacture goods with palm oil and oil palm products?

7.1.F None of the above. Please explain why.

7.2 What best practice guidelines or information has your organisation provided in the past year to facilitate the uptake of RSPO-certified sustainable palm oil and oil palm products? What languages are these guidelines available in?

This 2018 Clorox Palm Oil Responsible Sourcing Action Plan outlines the strategy and specific milestones that will help ensure The Clorox Company and

our suppliers are making progress in implementing our Palm Oil Responsible Sourcing Commitment. We focused on three key steps to be carried out in

cooperation with our suppliers: 1. Evaluate and track ongoing supplier progress to meet our commitment. 2. Trace our core volumes to key milestones in

the supply chain, including origin refiner and mill. 3. Leverage key points in the supply chain where we can influence change and support related

transformation activities on the ground. Clorox will continue to explore additional strategies and opportunities to meet our commitments as we gain

further insights and achieve greater engagement with our supply chain. We believe implementation will be a journey of continuous improvement and that

we will be most successful through strategic partnerships within our supply chain, capability building and credible external stakeholders.

8. Greenhouse Gas (GHG) Footprint

8.1 Are you currently reporting any GHG footprint?

Yes

8.1.1 Please upload your publicly available GHG report
