## Challenges

### 1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

Production: we simplified our recipes and focused on Maximum 2 Qualities of sustainable Palm oil in 2016 (MB and segregated), but not all suppliers changed their processes in the same time so we Need more time than expected to reach 100%. Procurement: we focused on sustainable procurement and developed a guidance for our suppliers Promotion: if Palm oil is necessary for our products sustainable Palm oil is a basic requirement, our suppliers have to adapt the ingredients until 2018 Efforts: We have a timetable with milestones and a special management for this process. We are in time
