Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

Not all costumers wants to pay more for sustainable palm oil. We start from 2017 with 100% use of sustainable palm oil also wen the costumer do not want to pay more.

2 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

during the training of our employees we have made this a point of attention to learn them what its means and the reason of commitment to this. We offer and support it during our sales meetings
