Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

the availability of certified palm oil in very small amounts as in aroma's. We try to change the carrier to sunflower based products.

2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

A basic rule is that all suppliers that deliver palm oil should do it RSPO SG certified.
