Time-Bound Plan

3.1 Date of first supply chain certification (planned or achieved)

2017

Comment:

Date for audit is set on 12 June 2017 to be carried out by TUV Nederland.

3.2 Date expected to/or started to use any RSPO certified sustainable palm oil and oil palm products in your own brand products

2017

Comment:

We are more and more being faced by important marktes for our company (Scandinavian countries/France) that demand palm free products. This is pushing us to investigate and develop other raw materials to be used in our products. This resulted in a.o. Bolsius being awarded with a Swan Certification for the stearin candles. One requirement of Swan is that products do not contain any palmoil or palmoil based products. In year 2017 we will start using RSPO certified products in one of our premium products.

3.3 Date expected to be using 100% RSPO certified sustainable palm oil and oil palm products from any supply chain option in your own brand products

2018

Comment:

This will only be possible for us if we can use palm freely in all European countries if this is not the case than this year will be very chalenging.

3.4 Date expected to be using 100% RSPO certified sustainable palm oil and oil palm products from physical supply chains (Identity Preserved, Segregated and/or Mass Balance) in your own brand products

2020

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

We see that availability of CSPO grade of processed palm fractions is still limited. Crude grades are readily and cost effectively available but the hardenend/fractionated materials neededfor candle manufacture are less available making them rather costly. We also see that certain retailers start to move away from palm and start to ask for palm free products. In Scandinavian countries and France we are not able to use palm oil or palm oil derivatives in our products as this is not accepted by the local retailers.

2 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

We have participated this year in several meetings of FONAP in Germany.
