### **Time-Bound Plan**

3.1 Date of first supply chain certification (planned or achieved)

2018

### Comment:

Last year we bought 22 tons of PK certified MB and this year it is planned to buy 44 tons of certified MB PO

3.2 Date expected to/or started to use any RSPO certified sustainable palm oil and oil palm products in your own brand products

2018

## If target has not been met, please explain why:

It was planned that by the end of 2017 the RSPO PK would arrive, but due to a delay it arrived in January 2018, and it was already used in production

- 3.2.1 Referring to 3.2, in which markets where you operate do these commitments cover?
- 3.3 Date expected to be using 100% RSPO certified sustainable palm oil and oil palm products from any supply chain option in your own brand products

2030

### If target has not been met, please explain why:

We have promoted the use of PO and its RSPO derivatives both in our industrial business as well as in our clients, but are not yet willing to pay the additional cost that this entails, for which we feel that we will no longer be able to reach the objective that We had initially established.

3.4 Date expected to be using 100% RSPO certified sustainable palm oil and oil palm products from physical supply chains (Identity Preserved, Segregated and/or Mass Balance) in your own brand products

2030

3.5 Refe	erring to 3.3 and 3.4, In which markets where you operate do these commitments cover?

We have only delivered information in the negotiations with our main clients about the use of the sustainable OP, but due to the

higher cost it is a barrier for the adoption on the use, besides we inform you that we are members of the RSPO

# Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

As in the previous year, the economic issue continues to be an obstacle to the use of RSPO products, all of our clients are not willing to pay the premuim price, and in the last few years, some clients are looking for alternatives to change the use of palm oil. by other vegetable oils because of the negative connotation that has been given specifically by the saturated ones and also by the contaminants (Glicydol and 3-MCPD)

2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

Inform our clients that we are members of the RSPO Keep key clients informed about the RSPO and their vision
