--

4.3 Please explain why

- Challenging reputation of palm oil
- Confusion among end-consumers
- Costs of changing labels
- Difficulty of applying for RSPO Trademark
- Lack of customer demand
- Limited label space
- Low consumer awareness
- Low usage of palm oil
- Risk of supply disruption
- Others

Other:

Today approximately 19% of the world's palm oil is certified by the RSPO. Since we are a small user of palm oil and cannot expect to be able to purchase 100% of our palm oil requirements from a certified sustainable source we will therefore not be using the logo on product until all of our product is 100% covered. We do however say that we are members of the RSPO and working towards a 100% sustainable supply chain, which include palm oil. We also have some customers that insist on 100% use of sustainable palm oil in their products and we do comply with their requirements

4.4 Have you uploaded information and images of products using the RSPO Trademark to the RSPO mobile app?**5. Actions for Next Reporting Period****5.1 Outline actions that you will take in the coming year to promote the use of RSPO-certified sustainable palm oil and oil palm products along the supply chain.**

Our consumption of palm oil is very small, but through RSPO membership, we will ascertain sourcing of the palm oil we use, and monitor, through supply chain oversight any issues involved in the supply. Through diligence in supplier qualification assessments (per our supplier qualification program), we can ensure that the RSPO Principles and criteria are followed in assessing (potential) suppliers.

6. Non-Disclosure of Information

6.1 Information in the sections above are mandatory declarations in your ACOP. For confidentiality purposes, members may choose not to display volume data in Section 2 publicly; however, RSPO reserves the right to utilise the member's data on an aggregate basis for sectoral and total analysis. Please check this box if the member chooses to have the data in Section 2 displayed publicly.

No - Redact volume data

7.2 What best practice guidelines or information has your organisation provided in the past year to facilitate the uptake of RSPO-certified sustainable palm oil and oil palm products? What languages are these guidelines available in?

Glanbia PLC will ensure that our customers are informed of the RSPO status of the palm oil we use in our premixtures. We have worked with a specific customer and a Glanbia PLC Business Unit in another geography to ensure a certified and sustainable supply of palm oil in the ingredients mix as a vitamin carrier and have had our Glanbia facility - at Ballitore, Ireland registered to Palm Trace and the member ID is RSPO_PO1000007170. Furthermore, we will promote our membership of RSPO, and its activity, through our annual reporting on sustainability. We are committed to this reporting in meeting the EU Non-Financial Directive demands as well as meeting our corporate responsibilities.
