2.5 According to the information you have provided in this questionnaire, your company has not reached 100% sustainable palm yet by using the four supply chain models (Book and Claim, MB, SG, IP). Do you have plans to immediately cover the gap by using RSPO Credits?

No

2.5.1 When do you plan to cover the gap by using RSPO Credits?

--

2.5.2 Please explain why

So far, although we use, whenever possible, palm derivatives from certified suppliers, some of them do not use certified derivatives and some of them only have the MB version of the certification. As our finished products are very specific and we cannot change ingredients and suppliers very easily, we do not have the possibility of changing suppliers easily. In 2018 we managed to move from using MB to SG margarine and this is the raw materials we use in more percentage. We are working towards improving the situation.

2.6 What is the percentage of RSPO Certified Sustainable Palm Oil in the total palm oil used by your company in the following regions:

3. Time-Bound Plan

3.1 Year of first supply chain certification (planned or achieved)

2017

3.2 Year expected to/or started to use any RSPO-certified sustainable palm oil and oil palm products in your own brand products

2016

3.2.1 If target has not been met, please explain why.

-

3.3 Year expected to be using 100% RSPO-certified sustainable palm oil and oil palm products from any supply chain option in your own brand products.

2022

3.3.1 If target has not been met, please explain why.

I have explained (before) the situation regarding our raw materials and suppliers. As our finished products are a mixture of various ingredients that come from different suppliers, we take a lot of time to achieve a totally satisfactory mixture between ingredients and processes. Its not so easy to change suppliers without having various complications of the finished products.

3.4 Year expected to be using 100% RSPO-certified sustainable palm oil and oil palm products from physical supply chains (Identity Preserved, Segregated and/or Mass Balance) in your own brand products.

2025

3.4.1 If target has not been met, please explain why.

Although we try and use sustainable palm oil in our products, our customers only require us to use the RSPO ingredients, we do not need and we do not have the RSPO symbol in our labels, only inform the customers of the ingredients we use. This is the reason why we cannot fill in this document with a 100% sure information.

3.4.2 Which markets do these commitments cover?

Japan , Portugal , United Kingdom

3.5 Does your company use RSPO-certified sustainable palm oil and oil palm products in goods you manufacture on behalf of other companies?

No

3.6 Does your company have a Time-Bound Plan to only use RSPO-certified sustainable palm oil and oil palm products in the goods you manufacture on behalf of other companies?

No

3.7 When do you expect all products you manufacture to only contain RSPO-certified sustainable palm oil and oil palm products?

2027

4. Trademark Use

4.1 Do you use or plan to use the RSPO Trademark on your own brand products?

No

4.2 Please select the countries where you use or intend to apply the Trademark.

--

4.2.1 Please state the year that you started using the RSPO Trademark or the year you plan to start using the RSPO Trademark.

--

4.3 Please explain why

- Challenging reputation of palm oil
- Confusion among end-consumers
- Costs of changing labels
- Difficulty of applying for RSPO Trademark
- Lack of customer demand
- Limited label space
- Low consumer awareness
- Low usage of palm oil
- Risk of supply disruption
- Others

Other:

4.4 Have you uploaded information and images of products using the RSPO Trademark to the RSPO mobile app?

5. Actions for Next Reporting Period

5.1 Outline actions that you will take in the coming year to promote the use of RSPO-certified sustainable palm oil and oil palm products along the supply chain.

Try and use more raw materials that are RSPO sustainable. Convince some suppliers to achieve certification.

6. Non-Disclosure of Information

6.1 Information in the sections above are mandatory declarations in your ACOP. For confidentiality purposes, members may choose not to display volume data in Section 2 publicly; however, RSPO reserves the right to utilise the member's data on an aggregate basis for sectoral and total analysis. Please check this box if the member chooses to have the data in Section 2 displayed publicly.

Yes - Display Publicly

7.1.F None of the above. Please explain why.

-

7.2 What best practice guidelines or information has your organisation provided in the past year to facilitate the uptake of RSPO-certified sustainable palm oil and oil palm products? What languages are these guidelines available in?

We certified besides MB, also SG. We are trying to convince some of our suppliers to certify SG also and some that do not have certification to do so. So far it has not been easy.
Some do not consider to have better perspectives of improving their working patterns. We do not have documents that we send suppliers, but included in our company policy.

8. Greenhouse Gas (GHG) Footprint

8.1 Are you currently reporting any GHG footprint?

No

8.1.1 Please upload your publicly available GHG report

10. Challenges

10.1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

- Awareness of RSPO in the market
 - Difficulties in the certification process
 - Certification of smallholders
 - Competition with non-RSPO members
 - High costs in achieving or adhering to certification
 - Human rights issues
 - Insufficient demand for RSPO-certified palm oil
 - Low usage of palm oil
 - Reputation of palm oil in the market
 - Reputation of RSPO in the market
 - Supply issues
 - Traceability issues
 - Others
-

Other:

10.2 In addition to the actions already reported in this ACOP, how has your organisation supported the vision of RSPO to transform the market for sustainable palm oil in other ways?

- Engagement with business partners or consumers on the use of CSPO
 - Engagement with government agencies
 - Promotion of CSPO outside of RSPO venues eg trade workshops industry associations
 - Promotion of physical CSPO
 - Providing funding or support for CSPO development efforts
 - Research & Development support
 - Stakeholder engagement
 - Others
-

Other:

10.3 Please attach or add links to any other information from your organisation on your palm oil policies and activities (e.g.: sustainability reports, policies, other public information)

Training operators on the importance of sustainable sources, mainly because they are also consumers and can help boost the market.
