7.2 What best practice guidelines or information has your organisation provided in the past year to facilitate the uptake of RSPO-certified sustainable palm oil and oil palm products? What languages are these guidelines available in?

Sammontana considers palm oil as one of the possible oils to be used in its Bakery production chain, provided that it is cultivated in the respect of the environment and produced with processing and refining processes that guarantee low contents of contaminants dangerous for health.

For these reasons Sammontana has chosen to:

- use in the processing of its products margarines based on "mitigated" palm oil, with a maximum content of contaminants in line with the values proposed by the EFSA Commission (Sum of 3MCPD and esters lower than 2 ppm - Sum of Glycidol and esters lower than 1 ppm; or, as is expected for the foreseeable future, a single limit sum between 3-MCPD and glycidol equal to 2.5 ppm and subsequently to 2 ppm), controlling its characteristics and provenance directly.
 - eliminate palm oil from the composition of all ingredients and semi-finished products received from third parties (creams, improvers, flavorings, etc.), on which it is not possible to exercise a "direct" control.
 - maintain the RSPO Certification mass balance of the palm oil used
-

10. Challenges

10.1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

- Awareness of RSPO in the market
 - Difficulties in the certification process
 - Certification of smallholders
 - Competition with non-RSPO members
 - High costs in achieving or adhering to certification
 - Human rights issues
 - Insufficient demand for RSPO-certified palm oil
 - Low usage of palm oil
 - Reputation of palm oil in the market
 - Reputation of RSPO in the market
 - Supply issues
 - Traceability issues
 - Others
-

Other:

We had to face the opposition of Italian consumers to palm oil, considered unsafe. This is why we have worked with our suppliers to reduce the content of hazardous substances such as GE

10.2 In addition to the actions already reported in this ACOP, how has your organisation supported the vision of RSPO to transform the market for sustainable palm oil in other ways?

- Engagement with business partners or consumers on the use of CSPO
 - Engagement with government agencies
 - Promotion of CSPO outside of RSPO venues eg trade workshops industry associations
 - Promotion of physical CSPO
 - Providing funding or support for CSPO development efforts
 - Research & Development support
 - Stakeholder engagement
 - Others
-

Other:

We partecipe in this process by supporting the communication activities fielded by the trade association AIDEPI

10.3 Please attach or add links to any other information from your organisation on your palm oil policies and activities (e.g.: sustainability reports, policies, other public information)
