	No plans for this information to be released
;	Support for Smallholders
	9.1 Are you currently supporting any independent smallholder groups?
	No
	Do you have any future plans to support independent smallholders?
	No

#### Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

Cost continues to be the primary economic factor in the procurement of CSPO. We continue to try to mitigate this factor by trying to aggregate demand and achieve better economies of scale.

2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

We continue to reach out to our customers, particularly manufacturers of end products to educate them on the certification process and provide information to ease their transition.

3 File -Please attach or add links to any other information from your organisation on your policies and actions on palm oil (EG: sustainability reports, policies, other public information)
