2020

2.5 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%)? Please state annual targets/strategies.

By the end of 2020 we are hoping to trade RSPO certified Palm Oil and derivatives.
We are largely at the mercy of the refineries that we buy from and are putting pressure on them to become certified and offer mass balance and fully segregated palm products.
We feel that at this point in the time line there will be abundant options of supply for us and we should be able to reach our targets.
