Trademark Related

4.1 Do you use or plan to use the RSPO Trademark on your own brand products?

No

4.2 Please explain why

Not ruled for the moment. The consumers are disturbed by the quantity of different logos that they could see on products.

Actions for Next Reporting Period

5.1 Outline actions that you will take in the coming year to promote the use of RSPO certified sustainable palm oil and oil palm products along the supply chain

With the support of TFT, the Casino Group committed to:

- ensuring a transparent supply chain for the palm oil used in its private-label brands by first of all identifying the refiner or distributor so as ultimately to have better visibility of the whole supply chain, starting from the mill stage;
- using palm oil produced without causing any deforestation or exploitation, i.e., palm oil from plantations that adopt ecologically sound policies with regard to high conservation value forests, carbon-rich forests and peatlands, which also support the development of small producers and respect local communities and workers' rights;
- supporting responsible local producers in the producer countries in which the Group operates (Brazil, Colombia);
- sharing progress reports and information regarding actions and next steps to be taken.

☐ None of the above
 7.2 What best practice guidelines or information has your organisation provided in the past year, to facilitate the uptake of RSPO certified sustainable palm oil and oil palm products? What languages are these guidelines available in? Comment: In 2017, we continued to sensibilize our direct suppliers and some European refiners identified about our palm oil commitments. This measure improves in particular the identification of palm-based derivatives by our suppliers.

Support Smallholders

Groupe CASINO

9.1 Are you currently supporting any independent smallholder groups?	
Yes	
If yes, how are you supporting them?	

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

The main obstacle is the difficulty to have the guarantee that the traceability is respected throughout the supply chain. The RSPO supply chain for palm oil derived products isn't enough developed. Actions should be led with raffiners who are the point of entry in the European and French markets of the palm oil used downstream by the manufacturers of our own brand products. For this we asked our suppliers to obtain better visibility of our palm oil supply chain.

2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

We are working with TFT to have a clear vision of the supply chain until the mills. As early as 2015, the Group took several measures to involve private-label suppliers in its palm oil commitment, sending out letters informing them of the Group's policy.
