## Challenges

### 1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

Market misconception that certification of CSPO and related products has not made significant changes on the ground level ie production at plantations. Changing of market perception that CSPO has made positive significant impacts on the livelihood of the communities and producing countries is still the long term challenge. Consumers and consuming countries still need to be committed to responsible procurement and be willing to pay the premium for sustainably produced palm oil and its products.

### 2 How would you qualify RSPO standards as compared to other parallel standards?

--

---

#### Cost Effective:

Yes

---

#### Robust:

Yes

---

#### Simpler to Comply to:

No

---

### 3 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

Being actively engaged in the awareness and promotion of certifications to RSPO standards and encouraging consumer markets to support the use of CSPO and its related products.
