#### **Challenges**

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

KKD operates all facets of its business in compliance with local, national, and international laws and regulations, and strives to operate in a sustainable way. Due to relatively small scale of our operations, KKD are fast followers on industry norms and trends, as the sweet treats we sell, and the price point at which we sell them, do not allow for much cost/pricing flexibility. As such, we tend to follow as cost stabilize.

2 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

We monitor our shortening suppliers progress reports towards meeting stated commitments.
