#### Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

We have been trying to move from mass balance palm oil to fully segregated palm oil in our chocolate flavoured coatings. This has proved difficult due to the availability of supply. We have worked with our customers and suppliers to allow mass balance oil to be used until there are sufficient stocks of fully segregated oil available to change.

2 How would you qualify RSPO standards as compared to other parallel standards?
