Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

One of our main suppliers went into liquidation and we have encountered some problems with the supply of sustainable products.

2 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

We have been engaging with members of our industry like S.A.M.B to find ways to educate ourselves and our customers in sustainable products.
