Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

In this present world economy every thing is subject to price which can affect availability. In our situation this has not been to bad an issue and which we can seem to work around within our current suppliers. There are always problems but working closely with our suppliers we can resolve them.

2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

Its more business to business education and learning from others working in the same kind of business as our own to help educate ourselves and other in the way of RSPO and its vision.
