Meggle is reacting to customer demands. Especially in Africa & Middle East RSPO is not subject of any customer - even these customers abuse to receive RSPO goods due to price reasons.
Beside also not all relevant raw materials are available in RSPO MB standard.

Commitments to CSPO uptake

As you don't source 100% CSPO through physical supply chains (IP/SG/MB), please answer the following questions: Do you have plans to?

No

Please explain why:

Meggle is reacting to consumer demands. We assume within our business planning an increase by roughly 10% usage of CSPO.
Referring to our last ACOP and making it comparable by just taking the figures of Meggle Wasserburg, we have increased our CSPO by 20%.
Our total target 2014 -> 2015 could not be achieved as we have this year the first consolidated ACOP with our subsidiaries.

7.1. Do you have plans to immediately cover the gap using Book & Claim?

No

Please explain why:

too expensive and not desired & valued by our customers

Concession Map

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

As also stated out in our last ACOP report we still have significant problems to source relevant raw materials in MB and / or SG quality.
We are in discussion with all major suppliers in this segment, anyhow it is not possible.

2 How would you qualify RSPO standards as compared to other parallel standards?

--

Cost Effective:

No

Robust:

Yes

Simpler to Comply to:

No

3 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

Yes, we are informing and training our partners in all our seminars about RSPO. We have issued an specific RSPO presentation to the sales organization which is used in several customer discussions.
