Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

Since there are additional cost issue, it will need certain consensus among those concerned parties(supplier, customer and market) to be adopted.

2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

The investment to maintain RSPO certification indirectly supports small Palm holders. Employee training is regularly enfored to effective maintenance of the RSPO system. We are promoting RSPO through continuous promotion of our MB certified products.
