About Your Organisation

Organisation Name

New Biodiesel Co., Ltd

Corporate Website Address

<http://www.pk-logistics.com/2.0/en/newbiodiesel.php>

Primary Activity or Product

- Processor and/or Trader
-

Related Company(ies)

No

Membership

Membership Number	Membership Category	Membership Sector
2-0083-08-000-00	Ordinary	Palm Oil Processors and/or Traders

Palm Oil Processors and Traders**Operational Profile****1.1 Please state your main activity(ies) within the supply chain**

- Refiner of CPO and CPKO
- Biofuel producer

1.2 Operation and Certification Progress

--

1.2.1 Do you have a system for calculating how much palm oil and palm oil products you use?

Yes

1.3 Total volume of all palm oil products handled in the year (Tonnes)

--

1.3.1 Total volume of Crude Palm Oil (CPO) handled in the year (Tonnes)

96,000

1.3.2 Total volume of Palm Kernel Oil (PKO) handled in the year (Tonnes)

2,000

1.3.3 Total volume of other Palm Oil Derivatives and Fractions handled in the year (Tonnes)

24,000

1.3.4 Total volume of all palm oil and palm oil derived products handled in the year (Tonnes)

122,000

1.4 Volume handled in the year that is RSPO-certified (Tonnes):

No	Description	Crude Palm Oil (Tonnes)	Palm kernel oil (Tonnes)	All other palm-based derivatives and fractions handled in the year that is RSPO-certified (Tonnes)
1.4.1	Book & Claim	-	-	-
1.4.2	Mass Balance	-	-	-
1.4.3	Segregated	-	-	-
1.4.4	Identity Preserved	-	-	-
1.4.5	Total volume of Oil Palm handled that is RSPO-certified:	-	-	-

What is the percentage of certified sustainable palm oil in the total palm oil your company sells in:

Europe --%
India --%
China --%
South East Asia --%
North America --%

What is the percentage of certified sustainable palm kernel oil in the total palm kernel oil your company sells in:

Europe --%
India --%
China --%
South East Asia --%
North America --%

Time-Bound Plan

2.1 Date of first supply chain certification (planned or achieved)

2016

2.2 Time-bound plan - Year expected to achieve 100% RSPO certification of all supply chains

2018

2.3 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%)? Please state annual targets/strategies.

We as end user has not much to do to contribute on acquiring all RSPO certificate. We have to rely very much on smallholders and crushing mills in Thailand, to achieve this target. We are progressing on certifying as supply chain for our company which expect to me complete in July 2015

2.4 Timebound plan - Year expected to only "handle/supply" RSPO certified oil palm products

2016

2.5 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%)? Please state annual targets/strategies.

Its depends on the oil plam product available in market with RSPO certify, since most off our oil palm processor like refinery and biofuel producers are required to acquire or handle this RSPO related products. With limited numbers of this RSPO certify product available in market today, it is very difficult for us to sustain or handle/supply RSPO certified products within proper time frame.

2.6 How do you promote RSPO and RSPO certified sustainable palm oil to your customers proactively?

We normally promote the necessity of RSPO to most of our client and customer by promoting via the company profile when we have visitor to our site.

GHG Emissions

3.1 Are you currently assessing the GHG emissions from your operations?

No

Please explain why

We did not have any plan for GHG directly but we did comply with the ministry of industrial locally to control all the emission being release from our production plant. At the moment the only place which to release this emission is our boiler where we are currently using biomass as a fuel to reduce the use of other fuel. The emission will be controlled and monitored by the ministry of industrial in Thailand.

3.2 Do you publicly report the GHG emissions of your operations?

No

Please explain why

We did not report any of this detail to the public but we normally will report to the government sector every year.

Actions for Next Reporting Period**4.1 Outline actions that you will take in the coming year to promote CSPO use along the supply chain**

* We will promote CSPO to all our suppliers

* We will finish up the supply chain certification by July this year.

* After finish up the supply chain certify, we will promote the necessity of certifying RSPO to all the mills that supply CPO to our refinery by telling them that we have the system in place and will take only RSPO certified products in the future.

Reasons for Non-Disclosure of Information**5.1 If you have not disclosed any of the above information please indicate the reasons why**

N/A

Application of Principles & Criteria for all members sectors**6.1 Related to your sourcing, do you have (a) policy/ies, that are in line with the RSPO P&C such as:****6.2 Where relevant, what prevents you from trading/processing only CSPO?**

Nothing will prevent us from practicing the CSPO, it is very difficult to source the product with RSPO certified in Thailand. RSPO organization have to understand the nature of Oil palm processor in Thailand with consist more than 80% who are smallholders. To get their attention about RSPO is something that we can not do in days months and even years. If you really want to apply this RSPO application to all the Oil palm grower in the world you have got o understand the differences as well. We are not like Malaysia and Indonesia where your will see most of the Oil palm related processor are big entities. So we as oil palm processors in Thailand are trying very hard on how to get this done and do whatever is comply with RSPO, so the system is not something like ISO where you can apply and use in all king of business. This RSPO is somehow very specify with countries who grwo palm oil at the beginning then trace to the oil pam processor at the end. Please do understand this fact about Thailand for your understadning.

Commitments to CSPO uptake**As you don't source 100% CSPO through physical supply chains (IP/SG/MB), please answer the following questions: Do you have plans to?**

Yes

Please specify:

We plan to do MB vis our supply chain certification as to practice and get prepared with the system.

7.1. Do you have plans to immediately cover the gap using Book & Claim?

Yes

How and when do you plan to immediately cover the gap using Book & Claim?

Whenever the system is ready for us to use the system.

Concession Map

Do you agree to share your concession maps with the RSPO?

No

Please explain why: We do not have much of the detail to share at the moment.

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

The nature of smallholders in Thailand.

2 How would you qualify RSPO standards as compared to other parallel standards?

--

Cost Effective:

Yes

Robust:

Yes

Simpler to Comply to:

No

3 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

We expand our information which related to RSPO to most of the business entity who deal business with ur directly.

4 Other information on palm oil (sustainability reports, policies, other public information)
