Time-Bound Plan**2.1 Date of first supply chain certification (planned or achieved)**

2016

Comment:

The first SCC has been achieved in 2016. Received supply chain certification in March 2016 for MB oils.

2.2 Time-bound plan - Year expected to achieve 100% RSPO certification of all supply chains

2020

Comment:

This expectation of achieving 100% RSPO certification of all supply chains entirely depends upon our customers requirement for whom we buy the oils. If the customer wants a specific oil i.e. Segregated or IP, only then will we pursue the relevant certification. Also, to note here are the high premiums associated with such oils as you move up the RSPO certification supply chain. Very high premiums may discourage customers from getting oils like Segregated, IP etc.

2.3 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%)? Please state annual targets/strategies.

Although we have achieved our first supply chain certification in MB oils in March 2016, we have only been buying palm oils from RSPO members since 2014. This practice we will continue in the future as well.

2.4 Timebound plan - Year expected to only "handle/supply" RSPO certified oil palm products

2015

2.5 How do you promote RSPO and RSPO certified sustainable palm oil to your customers proactively?

Major part of sales is to large multinational customers who are already members of RSPO and using certified oils.

2.6 Which countries that your organization operates in do the above own-brand commitments cover?

- Pakistan

GHG Emissions**3.1 Are you currently assessing the GHG emissions from your operations?**

No

Please explain why

Because we are a processor of palm oil derivatives only.

3.2 Do you publicly report the GHG emissions of your operations?

No

Please explain why

As explained in point 3.1 above.

Actions for Next Reporting Period

4.1 Outline actions that you will take in the coming year to promote CSPO use along the supply chain

We intend to continue buying palm oils from RSPO members in future. As explained in point no. 2.5, major part of sales is to large multinational customers who are already members of RSPO and using certified oils. They are all committed on this matter and have global time-bound plans in place.

Reasons for Non-Disclosure of Information**5.1 If you have not disclosed any of the above information please indicate the reasons why**

-

6.2 Where relevant, what prevents you from trading/processing only CSPO?

We are already buying 100% CSPO through Book & Claim & MB.

Commitments to CSPO uptake

As you don't source 100% CSPO through physical supply chains (IP/SG/MB), please answer the following questions: Do you have plans to?

Yes

Please specify:

We have received our certification for physical supply chain MB oils. The volume of such oils will continue to grow as our customers move towards such supply chains.

7.1. Do you have plans to immediately cover the gap using Book & Claim?

Yes

How and when do you plan to immediately cover the gap using Book & Claim?

Already doing so as our remaining volume (other than MB) is all CSPO through Book & Claim.

Concession Map**Do you agree to share your concession maps with the RSPO?**

No

Please explain why: --

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

The sources for CSPO have become limited; hence its has become expensive. We hope that as awareness for RSPO CSPO will grow, this factor will eventually be mitigated.

2 How would you qualify RSPO standards as compared to other parallel standards?

--

Cost Effective:

No

Robust:

Yes

Simpler to Comply to:

No

3 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

Since majority of our customers are large MNCs, supporting RSPO has not been an issue.

4 Other information on palm oil (sustainability reports, policies, other public information)

None.
