Yes

In January 2018, we sign a convention GIZ/NUTRISWISS/SAVONNERIE TROPICALE : "TENERA NY TANTSAHA" Organic and sustainable palm oil in Madagascar

The project is geared towards improving the palm oil supply chain, enabling farming communities to improve their resilience, diversify their risks and achieve greater self-sufficiency on a sustainable basis. As such, the project contributes to a number of Sustainable Development Goals (SDGs): eradicating poverty (SDG 1) and achieving food security, improving nutrition and promoting sustainable agriculture (SDG 2). By strengthening cooperatives and farming communities, it will also contribute to SDG 8 (decent work and economic growth) on an aggregated level.

Among the 200 farmers organised in the two partner cooperatives, the project aims to achieve the following specific results:

ÔÇ? 80% have secured land certificates.

ÔÇ? 80% have increased their incomes from diversified production by an average of 20%.

ÔÇ? 80% are satisfied with the land certificate issuance implemented through the project by all stakeholders (STHM, cooperatives, and municipalities).

ÔÇ? The contracts between the cooperatives and STHM are formalised, and at least one other contract is formalised for the diversification of crops by the end of the project.
