7. Actions for Next Reporting Period

7.1 Outline activities that you will undertake in the coming year to advance your certification efforts.

We will continue to coordinate engagement and capacity building activities to support the implementation of RSPO P&C throughout companies in the group. For management units that have already achieved RSPO certification, we will provide training and ensure the update of operational procedures to facilitate compliance with the new RSPO P&C. For the non-certified operating units, management systems to ISO standards will be developed and verified as a stepping stone to attaining RSPO standard. Comprehensive training will be delivered on sustainability practices to ensure sufficient knowledge. We will be promoting the certification of independent smallholders in achieving RSPO certification.

7.2 Outline activities that you will undertake in the coming year to promote CSPO along the supply chain.

We will continue internal training to understand CSPO Supply chain, and will be intensifying supplier engagement efforts to promote the benefits of RSPO certification among our suppliers and encouraging RSPO certification. We continue to work towards creating a fully traceable supply chain via the processes of supply chain mapping, smallholder mapping, and the implementation of improved traceability procedures. We will be incorporating RSPO certification as a key consideration in our responsible sourcing criteria. Furthermore, we contribute to promoting the positive impacts of the industry.
