If target has not been met, please explain why:

In our Danish production plant we use only SG certified palm oil for food ingredients and offers a full product range of emulsifiers as SG. We expect an increase in demand for sustainable palm oil for areas covered by our plant in Malaysia. We offer MB certified palm oil products out of Malaysia.

3.5 Which countries that your organization operates in do the above own-brand commitments cover?

Denmark, Malaysia

3.6 How do you proactively promote RSPO and RSPO certified sustainable palm oil and oil palm products to your customers?

We offer a full product range of SG certified emulsifiers and promote this on our website, when we communicate with customers, in our CSR report and at other occasions.

Trademark Use

4.1 Do you use or plan to use the RSPO trademark on your own brand products?

No

If target has not been met, please explain why:

B to B products are not very relevant for promotion of the RSPO trademark

Actions for Next Reporting Period**5.1 Outline actions that you will take in the coming year to promote the use of RSPO certified sustainable palm oil and oil palm products along the supply chain**

We will continue to promote a full product range of SG certified emulsifiers to customers and other relevant interest Groups. We require various SG certified palm oil derivatives from our suppliers and promote further production of SG derivatives.

Reasons for Non-Disclosure of Information**6.1 If you have not disclosed any of the above information please indicate the reasons why**

9.1 Are you currently supporting any independent smallholder groups?

No

Do you have any future plans to support independent smallholders?

No

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

It is challenging to find suppliers for SG certified fractions and specific fatty acids. There is always a Premium to the raw materials, some of them is unacceptable high or deliveries are limited. The raw material prices and the resources required by a company that needs an RSPO certification are challenges. We keep offering our customers SG certified emulsifiers.

2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

As a signatory to the Danish initiative on sustainable palm oil (Amsterdam declaration) we also join the Danish task force Group on sustainable palm oil. We have obtained RSPO distributor licences for a couple of subsidiaries in 2017 and we educate employees and customers in RSPO CPO and the requirements of the SCCS.
