Time-Bound Plan

2.1 Date of first supply chain certification (planned or achieved)

2011

2.2 Time-bound plan - Year expected to achieve 100% RSPO certification of all supply chains

2017

2.3 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%)? Please state annual targets/strategies.

We plan to have all our Indonesian processing facilities RSPO supply chain certified progressively by the end of 2016.

2.4 Timebound plan - Year expected to only "handle/supply" RSPO certified oil palm products

2020

2.5 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%)? Please state annual targets/strategies.

Apical will require our direct suppliers to comply with RSPO's P&C and take immediate remedial action to correct any violations. We understand that suppliers will need time to implement these requirements and shall require that suppliers have action plans in place for full compliance implementation by the end of 2016.

Regardless of remedial action and subject to any legal requirements, Apical will cease to do business with serious repeat violators of RSPO's P&C.

Apical will assist our non RSPO suppliers to draw up time bound plans to achieve certified sustainable palm oil progressively by end of 2020.

2.6 How do you promote RSPO and RSPO certified sustainable palm oil to your customers proactively?

Our trading teams have regular exhibition to communicate our customers by educate providing them with information on the benefits of RSPO and also getting feedback from them regarding their sustainability/traceability requirements.

GHG Emissions

3.1 Are you currently assessing the GHG emissions from your operations?

No

Please explain why

We will publicly report the GHG emissions from our operations effective 2018. During the trial implementation period from now till end December 2017, we will focus on data collection for testing the revised version of RSPO PalmGHG Calculator.

3.2 Do you publicly report the GHG emissions of your operations?

No

Please explain why

We do not have above commitment yet as the general understanding on greenhouse gases (GHG) by our suppliers is very still limited. We need time to educate them on the adverse impacts of GHG emissions and assist them to draw up time-bound plan to progressively reduce their GHG emission esp. from palm oil mills and existing peat areas.

Actions for Next Reporting Period**4.1 Outline actions that you will take in the coming year to promote CSPO use along the supply chain**

Apical will require our direct suppliers to comply with RSPO's P&C and take immediate remedial action to correct any non-compliance or violations. We understand that suppliers will need time to implement these requirements and shall require that suppliers have action plans in place for full compliance implementation by the end of 2016.

Reasons for Non-Disclosure of Information**5.1 If you have not disclosed any of the above information please indicate the reasons why**

Still gathering data for disclosure

Application of Principles & Criteria for all members sectors**6.1 Related to your sourcing, do you have (a) policy/ies, that are in line with the RSPO P&C such as:**

6.2 Where relevant, what prevents you from trading/processing only CSPO?

Slow market uptake and lack of premium.

Commitments to CSPO uptake

As you don't source 100% CSPO through physical supply chains (IP/SG/MB), please answer the following questions: Do you have plans to?

No

Please explain why:

--

7.1. Do you have plans to immediately cover the gap using Book & Claim?

No

Please explain why:

--

Concession Map

Do you agree to share your concession maps with the RSPO?

No

Please explain why: Still gathering data for concession maps

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

Harmonization of the RSPO & ISPO to become one standarts in Indonesia, so we don't have to waste time and money for the similar certification.

2 How would you qualify RSPO standards as compared to other parallel standards?

--

Cost Effective:

Yes

Robust:

Yes

Simpler to Comply to:

Yes

3 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

Apical in its Manifesto which was publicly notified on 2 April 2014, is a clear support of RSPO vision to transform the sustainable palm oil market together with other key stakeholders. We realize that our smaller third party suppliers are important contributors and we are working towards helping them and guiding them to take up RSPO membership and subsequently certification by 2020.

4 Other information on palm oil (sustainability reports, policies, other public information)

Sustainability now covers several new areas such as high carbon stock (HCS) and GHG calculation. While larger established plantation companies are able to comply these new sustainability requirements, it will be very useful policy for RSPO and environmental NGOs to conduct familiarization/training courses for the smaller players along the supply chain.
