What languages are these guidelines available in?

7.3 Your answers above indicate that you are not yet using 100% RSPO certified palm oil and oil palm products. Do you
have plans to immediately cover the gap using Book & Claim?

No

Please explain why

We have a transition timeline for our own branded products. We are working with customers on who's behalf we manufacture products on a transition plan but this is ultimately their decision.

GHG Footprint

8.1 Are you currently reporting any GHG footprint?

No

Please explain why

No plans to report this at current time.

Support for Smallholders

9.1 Are you currently supporting any independent smallholder groups?

No

Do you have any future plans to support independent smallholders?

No

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

The main challenge is convincing customers to accept the premium in cost associated with switching to CSPO. We are working to mitigate the cost by increasing volumes and spreading the fixed costs of the program over larger tonnage.

2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

We continue to educate customers on the program and assisting with answering questions and providing resources as needed.

3 File -Please attach or add links to any other information from your organisation on your policies and actions on palm oil (EG: sustainability reports, policies, other public information)
