Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

Our biggest issue came in December of last year when a shipment of RSPO palm was delayed-we then had to reach out to other suppliers who were RSPO certified to maintain we only used RSPO.

2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

We have officially become RSPO certified and are finishing up our first surveillance audits.
