### Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

Press and environmentalists make massive public pressure on the population to buy no palm oil or products with palm oil. We supported the Information about RSPO palm oil and its positive effect in agriculture opposite of other oils.

2 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

We make no other ways.
