Challenges

- 1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?
- a) Our raw material supplier i.e. Crude Palm Oil and Palm Kernel Oil many of which are not RSPO certified. b) Those who are certified RSPO supplier demand premium for the product where our customer are not willing to pay such premium.
- 2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

Despite of the promotion activities by RSPO, the anti palm oil campaign within EU region is rampant.
