Time-Bound Plan

3.1 Date of first supply chain certification (planned or achieved)

2014

3.2 Date expected to/or started to use any RSPO certified sustainable palm oil and oil palm products in your own brand products

2014

3.2.1 Referring to 3.2, in which markets where you operate do these commitments cover?

3.3 Date expected to be using 100% RSPO certified sustainable palm oil and oil palm products from any supply chain option in your own brand products

2020

If target has not been met, please explain why:

We changed the target from 2019 to 2020.

The demand for RSPO certified sustainable palm oil increases less than expected. There are still difficulties to find the appropriate raw materials.

3.4 Date expected to be using 100% RSPO certified sustainable palm oil and oil palm products from physical supply chains (Identity Preserved, Segregated and/or Mass Balance) in your own brand products

2021

If target has not been met, please explain why:

We changed the target from 2019 to 2020.

The demand for RSPO certified sustainable palm oil increases less than expected. There are still difficulties to find the appropriate raw materials. The fees on MB and SG are still high.

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

There is still a price gap between MB and SG. There is also a price gap in palm oil and palm oil derivates. The big retailers are not willing to pay anything for this gap. As a small manufacturer it is hard to compete.

2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

We give a clear explanation about the use of palm oil and stress the positive things and the goal of RSPO towards our workers and the environment. Using renewable resources is better than using non renewable sources in our specific case. We always give a presentation about the possible steps in RSPO for internal and external stakeholders.
