## Challenges

**1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?**

Our main customers for Sustainable Palm Oil are located in the EU. Within the EU there is a very active anti palm oil lobby, who seem very intent on banning palm oil products completely from the EU. no matter if they are certified as sustainable or not. Interest in CSPO is growing from non EU countries but slowly.

**2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)**

We talk with customers on a daily basis.
