#### Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

Low publicity for RSPO in Japanese market probably prevents our producing and supplying CSPO products. To collecting the information about RSPO and relevant market, we attended RSPO Japan Day 2016 last year.

2 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

We have explained the policy, importance, and SCCS of RSPO to our customers as necessary.
