

About your organisation			
Name of the organisation:	Danisco		
Membership number:			
Organisation Profile:	<p>Owned by DuPont, Danisco is a leader in food ingredients, enzymes and bio-based solutions. Using nature's own materials, science and the knowledge of our people, we design and deliver bio-based ingredients for healthier and safer products. Our ingredients are used globally in a wide range of industries from bakery, dairy and beverages to animal feed, laundry detergents and bioethanol offering functional, economic and environmental benefits. Our key focus is to meet demands from global food industry and develop biotechnological solutions to help our customers increase their competitiveness through innovative, healthy, cost-effective and sustainable solutions. Operating from more than 80 locations in more than 40 countries, this gives us proximity to our customers and suppliers, strong local market knowledge and minimal transport from raw material to finished product. We collaborate closely with our customers and suppliers all over the world. We have testing laboratories in many countries, so we can develop and test specific products, and tailor them to fit the local market.</p>

Total volume of PK handled per year		Total volume of PK certified handled per year	
		Total volume of GreenPalm handled per year	1,215
Number of certified supply chains and which supply chain option they use:	Number: 8 Option: IP / SG / MB		
	1. Identity Preserved (t)		
	2. Segregation (t)		
	3. Mass Balance (t)		
Timebound plan - Year that you expect to supply 100% certified sustainable palm oil?		Comments	Worldwide, 8 Danisco facilities are certified to handle mass balance as well as segregated palm oil. Within sourcing, all supply chain options are exploited and actively used. This means that today, an increasing part of palm oil grades arrive at our plants from sustainable source as we

Timebound plan - Year expected to achieve 100% supply chain certification			<p>maintain focused on the longterm objective to have conversion in full by 2015. In close cooperation with our clients, we are pleased to note that first sales of emulsifiers based on segregated palm oil are now a reality. Currently, it is our focus to maintain dialogue with selected supplying partners in upstream industry to ensure that they are aware of our needs for sustainability of palm based derivatives and that we collaboratively establish how we meet longterm objectives to the mutual benefit of all.</p>
